STAINLESS STEEL TRAYS GAMMAFIX

VASSOI IN INOX GAMMAFIX

WATCH THE VIDEO ON
 YouTube MEDESYS CHANNEL!

The revolutionary GAMMAFIX trays are characterized by excellent quality and functionality features, specifically conceived to facilitate the cleaning and sterilization process. Their special shape ensures a fully safe handling of the surgical instruments during the washing and sterilization phase, considerably reducing the risk of accidental injuries for the user. Thanks to the GAMMAFIX trays you can reduce the preparation time as you can organize them in handy and practical set-ups including the different items for each specific dental treatment. The range consists of 5 modular models, studied to offer the best versatility and efficiency. The type of silicone we selected for our trays meets the approval of the strictest Food & Drug standards (FDA).

I rivoluzionari vassoi della linea GAMMAFIX si caratterizzano per l'alta qualità e funzionalità, specificatamente studiati per facilitare il processo di pulizia e sterilizzazione. La loro speciale forma permette di maneggiare lo strumentario chirurgico in massima sicurezza, anche durante le procedure di disinfezione e sterilizzazione, riducendo considerevolmente il rischio di ferite accidentali per l'utilizzatore. Grazie ai vassoi GAMMAFIX si riesce a limitare il tempo di preparazione, in quanto gli strumenti necessari per ogni attività odontoiatrica potranno essere riposti in pratici sets pronti all'uso. La gamma si articola in 5 modelli modulari, studiati al fine di offrire la massima versatilità. Il tipo di silicone prescelto è conforme ai severi requisiti Food & Drug (FDA).

GAMMAFIX
 by MEDESYS

A The exclusive locking system, keeps the tray perfectly closed. The mark on the locking knob shows the open / close position. L'esclusivo ed efficace sistema di chiusura. La fessatura indica la posizione di apertura / chiusura.

B Open corners facilitate the outflow of residuals and water, reduce the drying time. Angoli aperti agevolano l'uscita di acqua e residui, riducendo i tempi di asciugatura.

C The type of silicone we use for our trays meets the approval of the strictest Food & Drug standards (FDA). Il silicone utilizzato rispetta la severa normativa Food & Drug (FDA).

D A safe and easy joint system. Sicuro e semplice meccanismo di chiusura.

E The enlarged holes offer more open space for a perfect washing process and a safe sterilization. I fori di dimensione maggiore assicurano una maggiore capacità di lavaggio ed una efficace sterilizzazione.

F Improved top flexible V-Shape for the silicone profile, specifically conceived for storing instruments having different sizes. Barretta in silicone forma V migliorata, concepita per trattenere strumenti di sezioni diverse.

NEWS

The contrast blades, made of anodized black aluminum, increase visibility on details and higher quality pictures while eliminating non-essential objects.

Le lame di contrasto, realizzate in alluminio anodizzato nero, migliorano le fotografie mettendo in risalto i dettagli ed eliminando gli elementi non d'interesse.

The line has been created in collaboration with Dr. Kevin Chacón Pérez of México, expert in orthodontics, ortho-odontopediatrics and aesthetics odontology; a well-known opinion leader in dentistry.

LUBRICANT OIL WITH SPECIAL THIN DISPENSER NOZZLE

Lubricant oil: when used regularly it protects reliably from wear and prolongs the efficiency of the instrument.

The lubricant oil ensures that all hinged and jointed instruments keep operating smoothly and delicately and also protects them from corrosion and residues. It is advisable to use the oil prior to sterilization procedures. Physically inert.

OLIO LUBRIFICANTE CON SPECIALE EROGATORE SOTTILE

Olio lubrificante: se usato regolarmente prolunga la durata e l'efficienza dello strumento.

L'olio lubrificante di Medesy favorisce il movimento scorrevole e delicato degli strumenti a snodo, proteggendo al tempo stesso da corrosione e sedimenti.

Si raccomanda di utilizzarlo antecedentemente la fase di sterilizzazione. È fisicamente inerte.
